How Our School Protects Us

Our teachers make sure we are safe when we are online. If we see any inappropriate content that scares or worries us we know to report it to a trusted adult.

The videos and websites that we use are always filtered and checked for our safety to use.

Keeping Safe Online

How The Internet Helps Us At School

Lots of our learning at school is supported and influenced by the online world.

We use lots of websites to help us learn such as:

Times Tables Rockstars

Purple Mash

BBC Bitesize.

The Online World

The online world can have a positive effect on many but users need to be aware of the disadvantages. Things like cyber-bullying, scams, trolls and rude language are some of the burdens. Always make sure you have your privacy settings on all gaming and social media to keep you safe.

The Social Web

Social networking apps such as TikTok and Snap Chat are popular with pre-teens and teenagers worldwide. Due to these age restrictions have been recommended to keep us safe.

13+ Facebook, Instagram, TikTok, X, Snap Chat

16+ WhatsApp

Safety Online

Inside school we use many different websites and apps to help us learn. To keep us safe online we must remember:

- Not to give out any personal information.
- Don't post pictures without consent.
- Use safe websites approved by a trusted adult.
- Choose long passwords with a mixture of upper case and lower case letters, numbers and symbols.
- Only play age appropriate games that have been approved by a trusted adult.
